

Why choose Spit & Giggle?

You should choose Spit & Giggle if our work reflects your family. For us it is simple, life isn't posed and neither should the photographs of your family. Your images should encompass who you are as individuals and as a family and they should make you stop for a moment and smile every time you look at them whether it be now or 20 years down the track.

Expectations?

Our number one goal is to make you happy because the experience of having your family photographed should be a very joyous memory, the session should be happy, silly, playful and real and if you aren't pleased then it can't be any of those things. It is for this reason we try to make the process as easy as possible for you. We ask for a deposit for the photography session (either the session fee or 50% of the session fee and package price) to secure your date and time but apart from that you do not pay unless you are pleased. We believe we have done our job if you struggle to stay on budget when purchasing, when you can't decide which single image to have printed because you want them all. You can also expect us to care if you aren't happy and to go about fixing the problem straight away. Photographing your family is a truly immeasurable investment, it is a moment in your family's lives you can never get back to but yet through your images you can be in that moment for the rest of your lifetime.

Preparation?

To truly gain the most out of your photography session preparation is the key. The more care you take in your preparation the more amazing your results. It is all about an eye for detail and while a lot of minor details are easily passed over by the human eye the camera sees and captures all.

- **Ears, eyes and noses** should be cleaned inside and out.
- All **faces** should be washed and freshly moisturised, if men are going to shave please ensure it is done that morning.
- **Cradle cap** will be clearly visible in images, please make sure it is removed should you not want it to be visible. An excellent trick for this is some olive oil rubbed into your baby's head and then gently remove it with an old soft toothbrush.
- **Hair** should be washed, brushed and styled.
- Make sure your **house** is clean, neat and tidy as it will be the background of your photos.
- **Carpets** should be vacuumed and free of fluff.
- Any special or **sentimental toys or blankets** cleaned and kept out to ensure they are included in the photos.
- Have all **curtains** open and all lights on.
- Choose **clothing** that you feel great in.
- For the children choose clothing you love, choose a **special outfit**.
- Clothes with **simple patterns and plain colours** are best, try to avoid prints and images as these tend to date the quickest.
- Make sure **clothes fit everyone correctly** so that they aren't falling off or the children aren't swimming in them.
- Feel free to have **multiple outfits** assembled to change the children into to add some variety to the images.
- For **woman** please make sure your bra straps are well hidden and tops aren't too low as you will be moving around and leaning towards the camera.
- **Clothes clean and crinkle free**, check for vomit, food, lint and fluff (have spare changes on hand for when accidents occur).
- **Shoes** are not necessary.

- Prints are produced on professional printers with the highest quality inks through a colour synced system. Put simply you receive flawless results.

- All images are printed on a semi-gloss paper that has been design specifically for long lasting, professional results.

- The paper uses the latest emulsion technology to produce enduring prints with beautiful skin tones and deep saturated colours. The paper is also optimised for fantastic sharpness and contrast.

- Prints are individually framed to exhibition

standard. All prints are mounted into a frame one print size larger and then expertly sealed to ensure prints are protected.

- Canvas prints are again produced on professional printers with the highest quality inks and then stretched around a wooden frame the images wrapping around the edges.
